

Happy Visitor @ AVTEC

“Their understanding of our business, willingness to customize to our specific requirements, their ability to seamlessly and professionally implement the same was an absolute delight. The product has been truly cost effective. Their continuous focus in solving real business challenges makes them our preferred vendor!”

Mr. Kaspar Joseph
AGM, AVTEC

Objective

- Gain real-time visibility of visitor details
- Knowing how many visitors have visited and which department
- Reduce manual work
- Eliminate paper based processes

How Happy Visitor Helped?

AVTEC is a leading global business house with operations across 5 continents. They have about 24 manufacturing facilities and a total of 20,000+ employees.

AVTEC preferred to implement Happy Visitor at their premises to address all their visitor management challenges. Happy Visitor has helped AVTEC eliminate manual management of visitor records by completely automating the process. AVTEC has reaped benefits like:

- ✓ Complete automation of visitor management process
- ✓ Visitor pre-registration helped them build a positive brand image
- ✓ The SaaS based system is available across their premises giving an enterprise level view of visitor information
- ✓ Increased security by blacklisting unwarranted visitors
- ✓ Emergency evacuation report in case of emergency

About Us:

Happy Visitor is as a comprehensive cloud based enterprise visitor management product that is dedicated to providing quality services. Happy Visitor is a simple and affordable solution to all your visitor management challenges. Whether your need is to automate the front office operations, track repeat visitors or to secure your premises, Happy visitor is a one stop solution to all.
